

Hanna Alkassas for Part-Time Faculty Officer-at-Large

I would like to join SOC for the next year because my participation in committees allows me to serve my community and Cuyama College better. My contribution to the team will add more diversity and different cultural aspects that represent faculty and students. Also, my understanding of 10 + 1 was enhanced by serving students and adjuncts since I joined previously, and I believe my demonstration and support to my colleagues will be better for the coming year. I would like to be the voice of the adjunct instructors and assist students in staying on their path to a better future to enable the mission and vision of Cuyamaca College. I practice equity in my role by working on three projects: creating and supporting a full ZTC degree and certificate in Arabic and developing and creating open educational resources. In addition, being part of the team will advance equity and reduce the barriers for adjuncts to better address our students' academic and non-academic needs.
