

# Sasha Carter – Instruction

I have been working part time at Cuyamaca college and other colleges around San Diego County since Spring 2015. Over these times I have been privileged to work with a number of incredible mentors across many disciplines at many institutions. I am running for faculty Senate to bring the best of these ideas and the best of your ideas to our college governance. I know first hand many of the struggles faced by part-time faculty and hope to be an advocate for an environment that helps us best serve our community of learners in a truly sustainable, equitable fashion. I believe true work is listening and that equity brings the best of all us to the table and makes our learning experience richer. Thank you for this opportunity.
